Introduction

Annotated References

LeCun, Yann (2022). “A Path Towards Autonomous Machine Intelligence”. In: *OpenReview preprint*. URL: <https://openreview.net/forum?id=BZ5a1r-kVsf>.

Example annotation: LeCun proposes the Joint-Embedding Predictive Architecture (JEPA) as a component of a modular architecture for autonomous intelligence. This paper grounds the JEPA side of the project. Replace or extend this annotation with your own summary, critique, and statement of relevance.
